### stable desktop solutions that reduce IT complexity

The HP Compaq Business Desktop d530 series provides the stability and manageability you need to reduce ownership costs, increase productivity and cut the complexity of PC ownership in the enterprise. In addition to a common software image, enhanced manageability solutions, easy-to-understand product offerings plus global availability and warranty, the HP Compaq d530 series also offers:

- **Security:** includes a wide variety of features and options to address today's security concerns – from locks and sensors for physical security to access control and data protection through the new ProtectTools Embedded Security System.
- **Predictability:** ships with a single software image - common across products using the same chipset – for up to 15 months, making it easier to deploy and manage multiple PCs.
- **Productivity:** stable and long lifecycles, a common image and superior manageability features allow you to plan, deploy, manage and transition PCs easily in networked environments. Enjoy maximum productivity by focusing more on your business and less on your IT.
- **Reduced complexity of PC ownership** choose a product line that's easy to understand, offers commonality across several chassis configurations, has a set of network-enabled management tools, is available globally and includes a 3/3/3 warranty.
- **Best lifecycle value:** allows customers to standardise on a particular platform to control support costs and maximise long-term investments.
- **Latest processor and chipset technology:** the new Intel® 865G chipset and the Intel Pentium® 4 processor with Hyper-Threading Technology allows background computing tasks (such as virus scanning and data compression) to run with minimal loss of performance.
- **Cutting-edge tech features:** includes DDR-Synch DRAM memory (non-ECC), Universal Serial Bus (USB) 2.0, SMART storage options, Disk-on-Key, MultiBay technology, programmable keyboard and scroll mouse, chassis security and TCPA security measures.
- **Flexible configuration:** built-in flexibility allows you to select exactly the right mix of features to match your budget and achieve optimum price/performance.
- **HP Lifecycle Solutions:** we offer customisation support throughout the lifecycle, helping you increase productivity and reduce ownership costs.
- **Service and support:** take advantage of our comprehensive portfolio of reliable global service and support offerings.
